The impact of the COVID-19 epidemic on the number of visitors in selected protected areas in the Czech Republic

DAVID ZAHRADNÍK, MAREK BANAŠ,
MIROSLAV ZEIDLER, ONDŘEJ VÍTEK

May 10th, 2022

COVID-19 EPIDEMIC

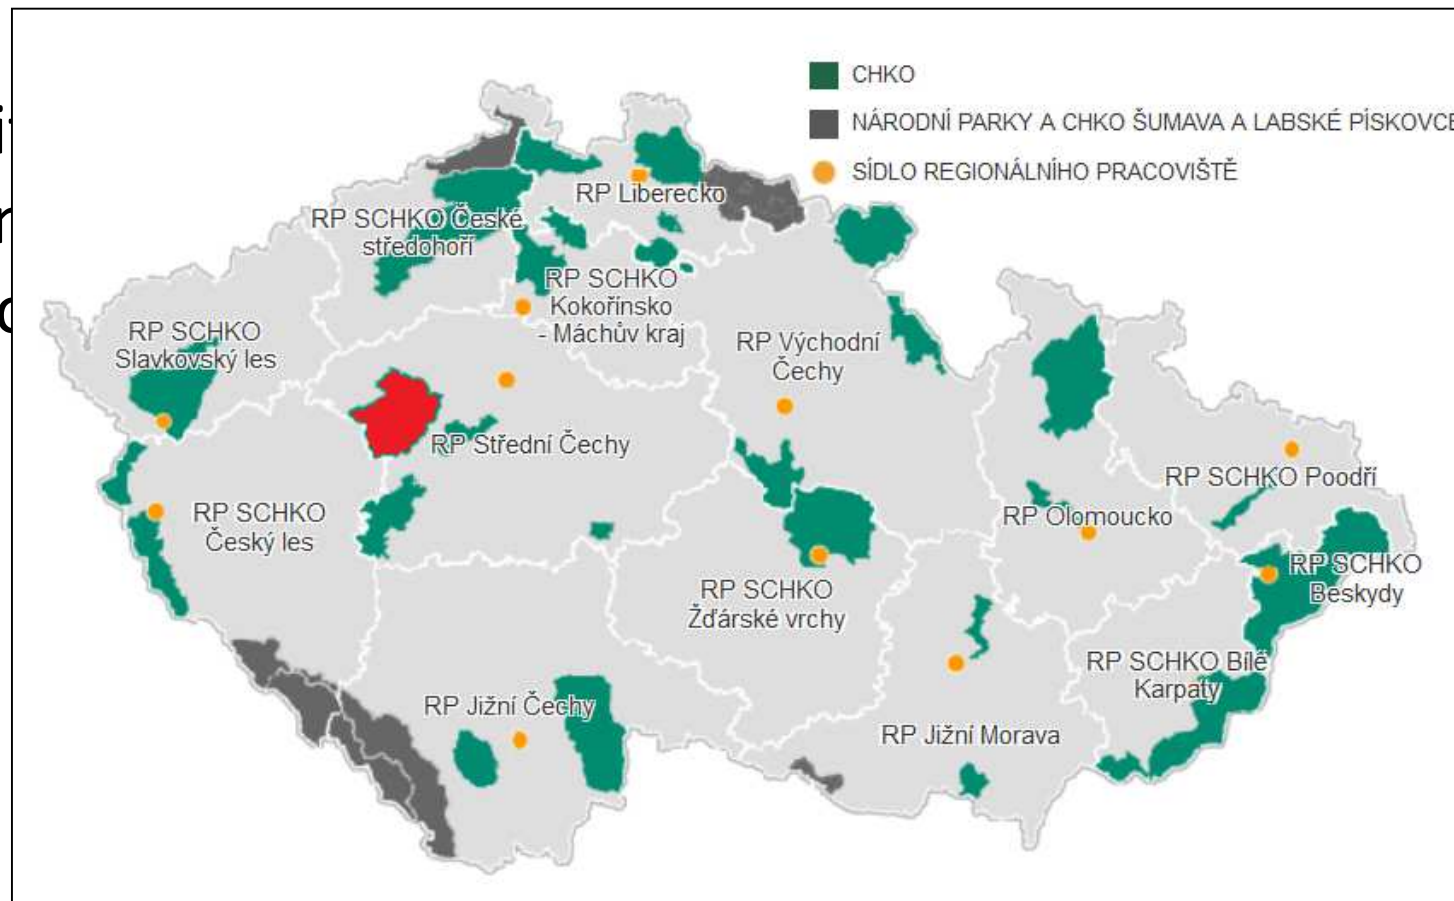

- March 2020: first official cases
- Individual quarantines and isolations
- Lockdowns: municipalities, districts, state borders
- Impact on many human activities, incl. recreation

METHODS

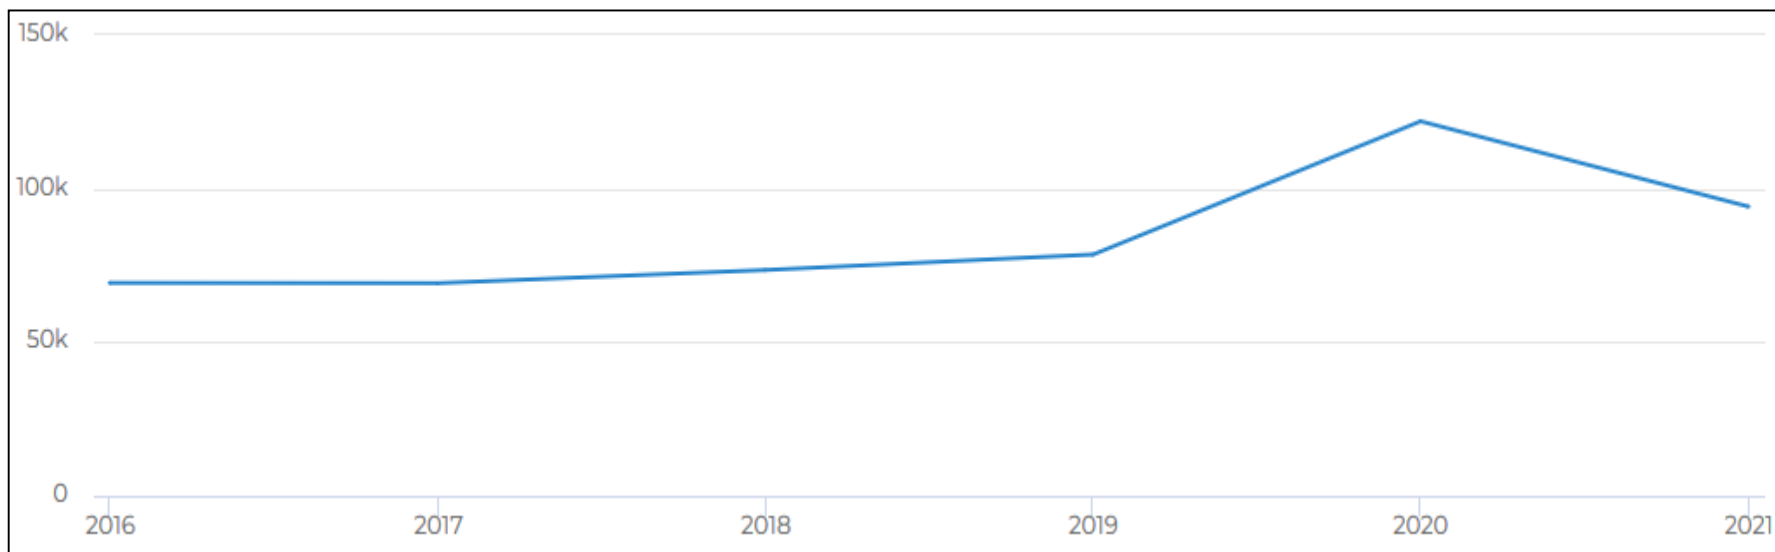

- 2020-21 up to 79 automatic counters in protected areas in 17 PLAs (NCA CR)
- visitor numbers hourly
- results without other influences selected

CONCLUSIONS

- factors influencing visitation: weather, snow cover, Covid-19
- 2020 significant change, 2021 slight
- different type of changes
- questionable future

See you outdoors!
